# Investment-Friendly Legislative Environment

**W**ith the aim to build a comprehensive legal guide to all those who have an interest in the Special Economic Zone at Duqm (The Zone), the Special Economic Zone Authority at Duqm (SEZAD) presents this Legal framework which outlines the various legislations governing the investment environment in the Zone.

The legal and regulatory aspect is vital in enhancing the investment environment and building an environment that is capable of attracting all types of investors. Therefore, since its establishment in 2011, SEZAD has pursued building a solid legislative environment in order to attract investors to the Zone and to reflect the Sultanate's vision in transforming Duqm to an investment oasis.

Moreover, in order to achieve this vision, SEZAD has ensured that the regulations, bylaws and decisions that regulate the investment environment in The Zone meet aspirations of both local and global investors.

In conclusion, SEZAD is pleased to present this issue of the Zone's legal framework and we look forward for it to enrich the Omani library and to provide more insight on the laws currently practiced in the Zone.

# Lifting The Status of Public Utility Project from some of The Land Located within the MasterPlan of The Special Economic Zone Authority at Duqm

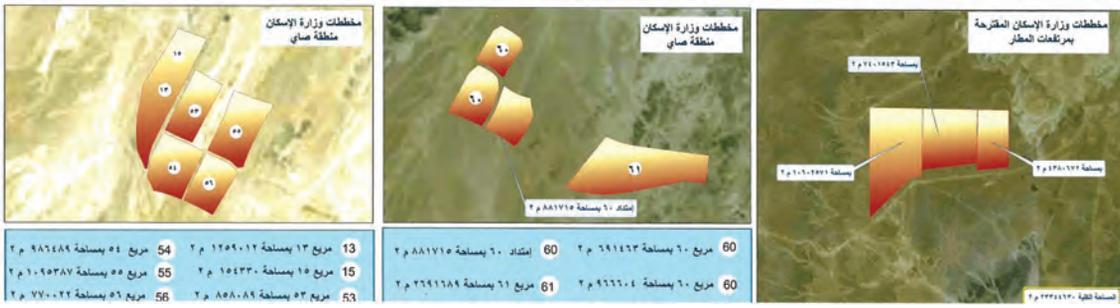

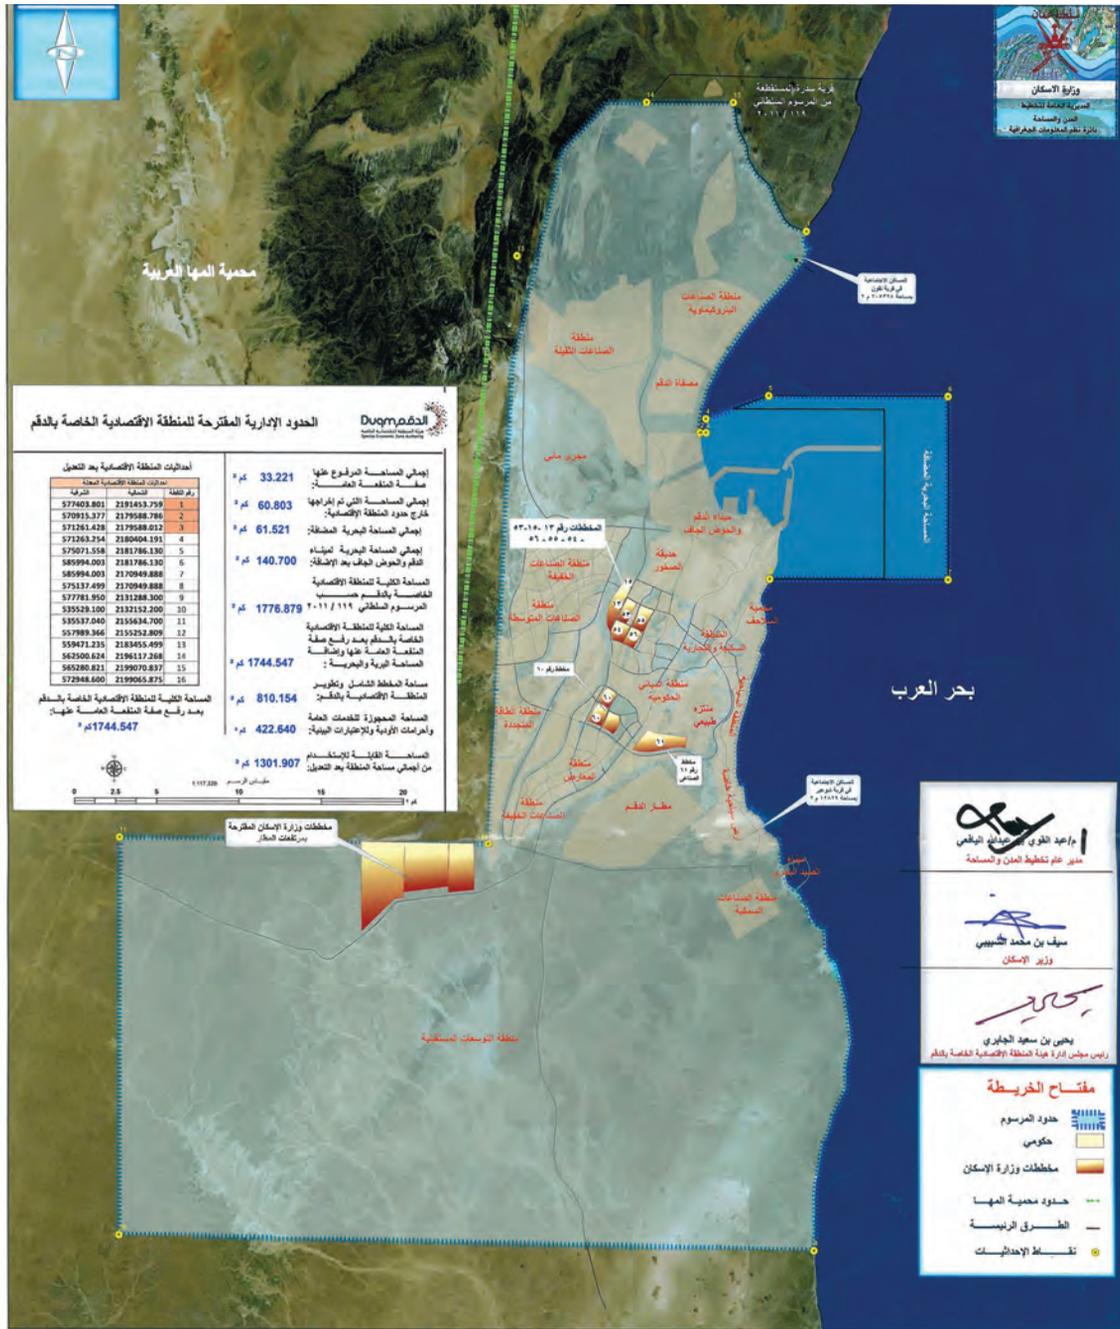

Lifting of the public utility status from some schemes within SEZAD scheme aims to settle the situation of some citizens who have been issued title deeds or compensate them with alternative lands. The schemes are as follows:

- Airport Heights
- Schemes 13 and 15 south of the hospital in Sai
- Residential commercial scheme 53
- Residential schemes 54, 55, 56, and 60
- Light industries scheme 61
- Fifteen square kilometers of the same scheme as per the enclosed layout

The settlement of the situation of citizens issued title deeds in above mentioned schemes or compensated with alternative lands requires the issuance of a Royal Decree to lift the public utility status from these schemes.

## Memorandum on

# Designating Development of Ras Markaz as a Public Utility Project

The development project of Ras Markaz area in Duqm aims to support and achieve the objective of the future vision of the Omani economy in terms of diversifying sources of national income. The most important components of the project is the establishment of warehouses for storage and export of crude oil. This would directly optimize the use of crude oil trade sector and promote the benefit of associated industries through the exploitation of the site and reducing production costs, which would increase revenue from the oil sector. This would also optimize the value-added natural depths of the Arabian Sea and link the commercial interests of the companies involved in the production and marketing of the oil sector.

SEZAD has paid required attention to this project in terms of economic and social returns and the growth resulting from its implementation. As this is one of the vital projects for SEZAD, it would be important to include Ras Markaz area described in Appendix (1) to The Special Economic Zone at Duqm as this will enable the project to benefit from the existing investment, legislative and legal environment in SEZAD, especially the advantages and incentives provided for in SEZAD regulation issued by Royal Decree 79/2013 and one-stop shop services.

Since the implementation of this project and inclusion of Ras Markaz area in The Special Economic Zone at Duqm require the expropriation of the affected property and compensating their owners in accordance with the provisions of the Public Utility Expropriation Law issued by Royal Decree 64/78, this requires issuance of a Royal Decree designating the development of Ras Markaz area as a utility project and attaching it to The Special Economic Zone at Duqm.

The Projects that are conducting any of the economic activities specified by a decision from the Chairman, shall be committed to record the data on the quantities and types of wastes resulting from the activity and the laboratory tests conducted thereon, the results of the self-monitoring programs it has conducted, and any other data the Authority deems appropriate for recording, in accordance with the data recording form prepared by the Authority for this purpose.

The Authority shall determine, in coordination with the National Documents and Archives Authority, the required period to maintain this record and the disclosure procedures of the data contained therein.

The information and data contained in the environmental record of the Project is considered confidential, and the staff of the Authority shall not disclose such information except in the legally sanctioned cases.

#### **Article (13):**

At the request of the Authority, Projects shall be committed to conduct an envi-

environmental review to assess the performance of the economic activity from an environmental perspective in order to identify the shortcomings and gaps that may cause certain environmental pollution, and then put in place a corrective plan to fill the gaps and correct the environmental situation of the economic activity, such that the environmental review is carried out in the following cases:

1. Occurrence of an accident within the Project which may result in environmental contamination.
2. If the inspection results of the Project revealed an environmental contamination.
3. If the Project exists on the date this Bylaw enters into force, and is listed among the Projects contained in the table annexed to this Bylaw.
4. If the environmental review is necessary in accordance with the recommendations contained in the environmental impact assessment study.
5. Any other cases the Authority may deem necessary.

The environmental review must be conducted by a specialized environmental consultancy firm, subject to approval of the Authority of the scope of the review and the staff responsible thereof.

In all cases, Projects must be committed to implement the recommendations contained in the environmental review report within the deadline determined by the Authority.

#### **Article (14):**

The Authority shall have the right to carry out environmental inspections on the Projects to verify their compliance with the provisions of the law and this Bylaw and other environmental standards and requirements established by the Authority, as follows:

1. Periodic inspection: Provided that the Project is notified prior inspection, within at least three days.
2. Subsequent inspection: To verify that the environmental violation contained in the periodic report has been rectified within the period prescribed by the Authority, provided that the Project is notified thereof within at least three days.
3. Surprise inspections: In cases as the Authority may deem necessary.

#### **Article (15):**

The substances that are prohibited from entry into the Zone for environmental reasons shall be determined by a decision from the Chairman.

#### **Article (16):**

In case of proof of entry of prohibited substances into the Zone, the Authority shall cause the Project to either remove them out of the Zone or destroy them, as the case maybe, at its own expense.

The Authority may also remove such substances or destroy them at the Project's expense, and without prejudice to its right of recourse to the concerned body with the expenses it has incurred thereon, and to impose the prescribed compensation for the sustained damaged.

#### **Article (17):**

The Authority may, in case of a Project failure to meet its obligations prescribed in the law or this Bylaw, and other decisions and directives issued by the Authority, take one or more of the following actions:

1. Warn the concerned Project and notify it to correct the situation within a specific deadline.
2. Impose an administrative fine not exceeding OMR (200,000) Two Hundred Thousand Omani Rials.
3. Suspend the Project for a period not exceeding six (6) months.
4. Cancel the environmental permit.

The Authority may not suspend the Project or cancel the environmental permit in the two cases cited in items (3 & 4) of this Article, except after notifying the Project of the violation attributed thereto, determining a deadline for correcting

the violation, and the expiration of the mentioned deadline without correcting the violation.

**Article (18):**

The proprietor of the Project or his legal representative shall be notified of the decision issued in accordance with the provision of Article (17) of this Bylaw at the address recorded in the registers of the Authority. The concerned body may contest the decision, in case of rejection, to the Chairman within (60) sixty days from the date of the notification or the date he has become aware affirmatively that his application has been rejected, stating the reasons for the appeal and attaching therewith the supporting documents.

**Article (19):**

The Authority will study the appeal and take a decision thereon, either by accepting or rejecting it, within (30) thirty days from the date of submission thereof, and notify the concerned body of the result of the appeal. In case of elapse of the mentioned period without any decision being taken on the appeal, the decision is deemed as "rejection". In all cases, the decision issued by the Chairman is final.

**Article (20):**

The proprietor of the Project, his legal representative and the employees therein, must enable the concerned employees of the Authority to enter the Project, facilitate their work, give them access to the records and provide them with the data and information or the samples they may request.

**Article (21):**

The Chairman, upon consent of the Ministry of Finance, shall determine the fee payable to the Authority against issuing the environmental permits and approvals and the environmental services rendered for implementing the provisions of the law and the implementing Bylaws.

**Table of the Projects that require preparation of potential environmental impact assessment study**
